10, Provost Rd,
London NW3. 4 8T.

September 28th 2015

Dear MR-FERGUS FREENY,
(2015) In July, work started
on 11, Provost Rd. Although

I was given no prior notice,
we found out that 4 "Ensuite"
bathrooms were to be installed.

In August two Polish workmen
walked into my front garden
(without permission) and put
up a large, unrightly barricade
around the base of the house.

There has never been any
foreman, or person we could
approach - The barricade is

locked, and one workman
sleeps in the building. (I hear

* WHO ARE THE OWNERS?

② his motorbike arriving & departing.

The back garden is a DISGRACE. It has been full of laths, wood, & other building materials. It is sh covered against the weather; is an attraction for burglars; and is HIDEOUS.

In August, an army of workmen arrived. They have stripped the whole of the house back to the brickwork. At least 30 steps were removed (after at 7.30 am.) and the road was full of debris, dust & noise the whole of July.

Towards the end of the month, scaffolds arrived, and put up an ENORMOUS and unsightly scaffold, covered with flapping blue plastic. It was

2) was shown to everyone that
⑤ the roof had been taken off &
the dormer windows prepared for
replacement. This was WITHOUT
planning permission, or any notice
know. I gather No: 12 are
not bothered, because they are
related to the new owners (whichever
they are.)

In August all the workmen
disappeared, leaving me with an
empty building site. This is a
CONSERVATION, and the houses
are GRADE 2.

Now you have the check
to send me another application
to approve if you're putting it all
back again. How can an 1847
house be restored to its former
attraction, when you have allowed
its total destruction INSIDE.
It baffles belief that

(4) produce an "Heritage Dept" to say how wonderful you all are to restore the house to its former glory - How dare you, when you have allowed the destruction in the first place. We all know that the Council get MONEY, when they give planning permission.

Whenever my lawyer or I try to contact you, you are unavailable - What is the point of giving your telephone no.??

In your Planning Department details you make much of our street being unique - early 19C semi-detached villas. If Sir John Sumner (creator of the Science Museum) had been alive, your guide books would NOT HAVE BEEN placed. The Department is a disgrace - Yes Sir
