Planning application number [REDACTED]
Planning application address 57 South End Road

I support the application (please state reasons below)
I object to the application (please state reasons below)

Your comments

Dear Sir,
I object to the application on the grounds that it is not appropriate to have a substantial business grooming dogs below where people live. There is already a pet shop where dogs who need help can go. It is a small area and therefore appropriate to its location. However, this application is substantially larger. It backs onto our private gardens where we can enjoy the peace and quiet. We do not want to hear barking dogs. Secondly, you will surely not allow ventilations on the front of our building ??? where Dander and Fuff will be in the air, mixing with the many people who come to the area.

Please continue on extra sheets if you wish

P.T.O

How will we be able to enjoy the quiet enjoyment of our gardens? with barking dogs.

As we already have a pet shop and another within a short distance in Fleet road we do not need another one

How would you feel if you lived in Wentworth mansions having barking dogs 7 days a week from 8 to 6?

I cannot believe you would have large extractor fans on the front of the building as they cannot be fitted at the back.

You have a responsibility to respect residence in their homes, is that not part of our council tax to be able to rely on our local council to prevent businesses causing distress to local residence.

8 to 8 7 days a week no!
