Address..... 2, King's Mews London WC1N 2HY

Planning application number..... 2015/5080/P

Planning application address..... 29, King's Mews WC1N 2JB

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

I see no reason for the increase in height suggested in this proposal. This will limit the light to buildings opposite - including my own. It already has a third storey with living rooms - what is the rationale for an upward extension? However, it is already the tallest building at this end of the mews.

It appears to be a " cram them in and build it high" application: - with the proposed two studios on ground floor - the darkest part of ^{the} building
