Your comments on the planning application

I support the application.
It is in keeping with the area and will be a considerable improvement on the current building and learning environment for the children.
The new staircase and lift will help to ease congestion inside the current school building at both ends of the school day.
This in turn will reduce the amount of time that parents and carers who use cars (and there will inevitably always be some) will need parking on Minster Road which will ease vehicle traffic flow in these peak hours. Swifter drop off and collection logistics will be of benefit to all, including the

Your comments on the planning application

I am in support of the planning application to extend Mulberry House School. I believe this will be of benefit to the area and will not produce any negative impact whatsoever.

Your comments on the planning application

I support the expansion of Mulberry House School. My son attends the school, which is a short walk from our house. It is an outstanding, neighbourhood school offering a loving and supportive environment and great education for young children in Camden. The expansion plans will give the children more room in which to learn and play, including increased outdoor space in which to spend time outside getting fresh air and exercise is a safe environment.

Your comments on the planning application

I strongly support the planning application to extend Mulberry House School. My son attends the school which is a short walk from our house. It provides an excellent education and caring environment for its students. The proposed extension will provide additional space to allow the children to learn and play. In particular, the proposed roof playground will provide much needed additional outside space for the students.

Your comments on the planning application

My daughter currently attends Mulberry House School and I and my wife are very pleased with our daughter's stay at the school. The school provides excellent care for the children in a very nurturing environment and exceptional facilities. There is a very high demand for good nurseries/pre-schools in the area due to a large percentage of residents with working parents. It is key that institutes such as Mulberry house are able to cater to more parents by accepting more number of children - Hence I fully support the plan for creating new classrooms and more space.

Planning Application Details

The nursery provides for outside space for children to play which is vital for the physical & mental development of the children. However, the space available currently is limited.

Moreover

The proposed roof and the play facility on the roof would allow children to get extra open space for them to play. I am very pleased with the idea of a covered play area as it will allow the children to use it even on the days it rains (which is quite a few).

The school currently does not have a lift and thereby there are limitations for people with disability (staff, parents and grandparents) to access the first floor. Having a lift will benefit both parents and staff equally.

I have been associated with the school for a year and a half now and in that time I have personally seen the number of initiatives the school has taken to reduce & minimise the disruption/disturbance caused to the neighbours. I very strongly feel that the school will take all necessary measures to undertake the work with least disturbance to the local area & the neighbours.
