**59 REDINGTON ROAD
LONDON, NW3 7RP**

ARBORICULTURAL REPORT

Introduction

1. This report concerns trees in the rear garden of 59 Redington Road, London, NW3 7RP. It has been prepared in accordance with the recommendations of BS5837:2005 and includes a tree survey schedule, photographs and Drg. No. GBAS1609.01 on which the location, approximate crown spread and the root protection areas of the trees is indicated.

Assessment of the trees was visual only; all observations were made from ground level and no invasive tests were undertaken.

The Trees

2. T1 Oak – Mature specimen fairly close to the rear of the property. At the base of the tree is an open cavity extending deep into the trunk. (*Photographs 1 and 2*).
3. T2 Oak – A free-standing mature specimen. There is some overall thinning of foliage throughout the crown. (*Photograph 3*).

4. **T3 Cherry** – An attractive mature tree the crown of which is misshapen by the close proximity of surrounding vegetation. (*Photograph 4*).
 5. **T4 Apple** – This is a mature, multi-stemmed and much pruned tree. (*Photograph 5*).
