Your comments on the planning application

I fully support Mulberry House School's application to extend its premises. It will give the school new classrooms and a much-needed covered outdoor space. The design of the extension is very attractive as well as functional. I believe that the improved and extended building will greatly enhance the streetscape as well as allow the school to excel further in what it does best - the excellent education and care of young children.

Your comments on the planning application

The proposed extension is a well designed addition to the current school. It will both expand the capability of the school to meet the needs of its students and will be a positive addition in architectural terms to the locality. At present, the current school building is desperately short of space, so the addition will greatly enhance the facilities available as well as allow physical access to children for whom the existing access is inadequate. In providing a large multipurpose space which can easily accommodate the whole school or be subdivided the design will facilitate the inclusive character of the institution and expand the range of

activities that can be undertaken. The designers have found an elegant and rationale solution to both meeting the school's needs and respecting the site. It is encouraging to see the procurement of a piece of high quality architectural design in this situation and these are the grounds for my wholesale support of the application.
