

Dear planners and tree officers,

List 341

2015/5338/T No objection to the felling and replacement of the diseased Malus.

The Bay tree is a huge specimen, taking up much light and space.

I feel that it should have been pruned more previously, and possibly too late

now.

I understand that the council are to re-build the wall between Nos 27 and 25 as they own the latter.

If you allow felling, this would enable the adjacent Holly to take over.

2015/5357/T No objection to reduction of TPO (Ref C820)

List 342

2015/5469/T No objection

Thank you,

Eileen Willmott
