## F. REASON FOR THE APPEAL

The reason for the appeal is that the LPA has;

1. Refused planning permission.

2. Refused permission to vary a condition(s).

3. Refused prior approval of permitted development rights.

## G. CHOICE OF PROCEDURE

There are three different procedures that the appeal could follow. Please select one.

1. Written Representations

(a) Could the Inspector see the relevant parts of the appeal site sufficiently to judge the proposal from public land?

Yes  No

(b) Is it essential for the Inspector to enter the site to check measurements or other relevant facts?

Yes  No

Please explain.

The application has been refused because Camden considers that the extension will be detrimental to the nature of the conservation area. It is therefore essential for the appeal officer to ascertain what the nature of this particular part of the conservation area is. To get an understanding of the nature of this part of the conservation area the case officer will need to look around Edis and the surrounding streets. Although the appeal officer may be able to do some desk top research with google maps etc, we consider that it is essential that the appeal officer comes to site, to see the site context. The appeal officer would need to view the site from lower ground level and from 2nd floor level to get an understanding of the site and also an understanding of the reason for objection made by the neighbours.

Further because the application turned down solely on the ground that extension is not of architectural merit and it will therefore be detrimental to the conservation area, and because it has not been turned down on any amenity grounds, we request that the appeal officer is an architect.
