## F. REASON FOR THE APPEAL

The reason for the appeal is that the LPA has;

1. Refused planning permission.

2. Refused permission to vary a condition(s).

3. Refused prior approval of permitted development rights.

## G. CHOICE OF PROCEDURE

There are three different procedures that the appeal could follow. Please select one.

1. Written Representations

(a) Could the Inspector see the relevant parts of the appeal site sufficiently to judge the proposal from public land?

Yes

☐ No

(b) Is it essential for the Inspector to enter the site to check measurements or other relevant facts?

Yes

☒ No

Please explain.

Camden have confirmed that rear dormer of the roof extension does not contravene any planning regulations and is not detrimental to the conservation area. Camden have refused the planning application as they contend that the proposed design of the front / street elevation is out of keeping with and is detrimental to this particular part of the conservation area. The front elevation can be seen from the street. Although the planning inspector can get a feeling for the area by doing a desk top search using google maps etc we consider that it is essential for the inspector to visit the area in order to assess the character of this particular part of the conservation area. We have also submitted another planning appeal for a ground floor extension to the same house ( LBC ref 2015/2469/P) which was also refused planning permission so it would make sense for the planning inspectorate to review both applications at the same time.

2. Hearing

3. Inquiry
