Dear Sir,

Please could I object to this application on behalf of the Kings Cross CAAC?

This is a prominent building that clearly makes a positive contribution to the Conservation Area with its polychromatic facade that has survived relatively intact to date.

The proposed mansard is wholly out of keeping with the original facade - that does not include one rectangular window - and the proposed stair enclosure above just confirms that very little attempt has been made to take the qualities of the existing building into account. The objective seems to be to produce as much additional space as possible with minimum thought or expense.

Yours Sincerely,

Bill Reed.
