Hi Elaine,

Thanks for your email. Please see my response to your queries below:

'Generally the information appears satisfactory, with deep reveals into the brickwork and zinc that add definition and modulation to the facades. You are proposing to use the ALUK aluminium window system (58BW) which seems fine. Can you confirm the colour as it isn't that clear from the drawings?'

We were hoping to decide on this at a later date, once we have a full brick panel assembled on site, to ensure a finish that sits well with the brick colour/batch. We included the verified view from the back as we will basing the frame finishes on this. As the condition (6) regarding the brick isn't a pre-commencement condition and demolitions are required before this can be put in place is there a way of confirming the frame colour at the same time as this?

'On the front elevation you are proposing to use the 58BW – ST (Heritage) system. This has thinner frames and recessed glaz
