Your comments on the planning application

My objection to this development is based around the dealing with the light industrial element of the site. As a local Furniture Designer and Maker, I am acutely aware of how many workshop B1(c) premises are disappearing all over London and Camden. This is making it much more difficult for small business to be based in the community's in which they live and serve. It is a massive problem for London.

I note that they are proposing to put 3 commercial units in, a small ,medium and large. I would like to see more smaller units, spread over the ground and first floor.

I would like to see this site as a chance to greatly increase the provision of B1(c) units available to local craftspeople / artists. Not offices.
