Informative(s):

- 1 Reasons for granting permission.

Planning consent is sought for the replacement of rear window to timber framed French patio doors, and removal of existing side door to be replaced with matching bricks at ground floor level. It is considered that the proposed doors would be acceptable in design and appearance and would not visually impact the host building or wider conservation area.

The proposed doors would match the design and characteristic features of the existing doors and windows including the style dimension and material at ground floor level.

No objections have been raised in relation to the works. The application site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

The proposed development is in general accordance with Policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and Policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with Policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011; and the provisions of paragraphs 14, 17 and 56-66 of the National Planning Policy Framework 2012.
