Subject: application reference # 2015/5330/P

Hello,

I'm writing re: the planning application consultation to build a rear roof extension at flat 6, 6 regent's park rd. London NW1 7TX.

I'd like to express my concern about this work being carried anytime within the next 6 months as I'm expecting a baby anytime. My reaction to this proposal is not supportive as I imagine it would be disturbing to have any kind of construction in the building while I'm taking care of a new born. I'm particularly concerned about the noise and pollution (dust) created.

I live in the garden flat and plan to use the garden which is located in the back of the building to get fresh air and have a calm place for myself and the baby while we need to stay at home.

Thank you for your understanding and let me know if there is anything I can do to reiterate my opposition to this work for at least some months.
