2015/5551/P	Ms Flaminia Cinque	9 Bishopsdale House Kilburn Vale NW6 4QX	26/10/2015 12:42:36	OBJNOT	Had I not been informed by Sheltered Housing Officer, I would NOT have known about this! This is DIRECTLY in front of SHELTERED HOUSING where the work will cause MUCH destruction and inconvenience. Dust - major health issues. The space is TOO SMALL for that number of flats and as far as I know, Camden only sold 6 of those 8 garages. A bldg. of this height will seriously cut out light to those in Sycamore Ct and those in Holmesdale House. Why has this not been advertised properly? As Sec of Kilburn Vale TRA & RTA I expect to be sent some official communication with adequate time to respond and get comments back to you. If necessary, a meeting could be arranged so that residents can come to put questions to the panel. This space is NOT suitable for that number of flats. Please provide me with docs showing what is intended by way of Refuse provision as similar projects have caused GREAT refuse problems since there is no space to have bins and then dumping occurs with RATS and other issues. So many flats would bring extra parking for which there is already limited room for those who live in this area. This will be a massive disruption to the elderly people within Sycamore Court and cause no end of noise pollution and dust with the end result of no light. I strongly oppose this planning.
