Name. MISS PAULA STARKEY.....

Address. FLAT 2..... 1 HILLFIELD ROAD..... LONDON NW6 1QD.....

Email address.....

Telephone number. [REDACTED].....

Planning application number. 2015/5702/P.....

Planning application address. 3 HILLFIELD ROAD..... LONDON NW6 1QD.....

~~I support the application (please state reasons below)~~

I object to the application (please state reasons below)

Your comments

As before -- my objections to this application are as follows

- ① This extension is too large for the site. It is out of keeping with the backs of the other properties in Hillfield Road as no one else has extended beyond the garden steps.
- ② I will lose some of the light to the kitchen of my flat but the impact on the ground floor flat will be very much greater as it will make the kitchen there very dark and claustrophobic.
- ③ This extension would be built so close to my kitchen window as to intrude upon my privacy particularly during the building process.
- ④ In order to create the necessary flat area in the garden of no 3 Hillfield Road to build this extension an enormous amount of soil will have to be dug out. There is a danger of this causing problems to our garden's stability and also to the stability of the garden at no 5 Hillfield Road, as all 3 of our gardens slope steeply towards our houses. We already experience a drainage problem in very wet weather, which we often get nowadays, with water running down and collecting outside the back of the ground floor flat at our property. Building this extension so close to our boundary fence may cause problems to our own fencing and the question arises as to whether any necessary maintenance work on the extension could be carried out, when it arises, without trespassing on our land.
