2015/5551/P	ashley hamilton	2 mutrix road kilburn london nw64qg	28/10/2015 21:18:05	COMMNT	it concerns me that the plans have been made for such a large block on such a relatively small site, also it's too high it will rob me and my neighbours of our light and privacy,as it backs on to my house, it will certainly devalue my property.I have grave concerns with regard to more cars in the area, they have made no provision for car parking which is already overcrowded in the streets around here.more cars slamming there doors at night already disturb my sleep,and wake me up more cars will be more of nightmare for me.I get woken up every night,also people talk in the street at night loudly, with more people coming in and leaving a new building so close to my bedrooms, will be unbearable. The bins are not located in a very friendly location next to my house, the smell and more noise when they are collected right under my bedroom,not to mention a bin store like this is a fire risk, also adds a risk of rats.I strongly appose the plans.
