hi camden. my name is joe and i write poems on things that effect me. i am not prepared to give any more info out about myself. i strongly object to the proposals in millfield lane and i am expressing this to you with my poem. i will contact the people involved and i will also float my poem on a few internet forums to gain more support.

i no you will reach the right decission.

thank you for your time.

( mr anonymous. )

The Friends of Millfield Lane need YOUR help! 01.11.15

in a beautiful lane  
in which i am very fond  
the blood is the only drain  
it flows down millfield and into the pond.  
we are trying to prevent  
it is causing frustration  
will camden eventually back this event  
and approve a toned down application.  
or will they make a stand  
into nature put teeth  
because what we have is grand

and we will not allow this on our heath.  
maybe we are over reacting  
and this progression is inevitable  
does brian may article have any subtracting  
or should i have a "may" "queen and "poetry" sabbatical.  
in 100 years from this peace  
remembrance is the clue  
just like the theater production and the music police  
millifield lane will be remembered like "we will rock you".

( i recently wrote a poem on brian mays article <http://www.camdennewjournal.com/mayair> . while i was out today i was asked to sign a petition about the above. i did. what i want to no is, will we remember this date and will we look back with regret if it gets the go ahead. luckily the theme of we will rock you was only make believe but this is real and the consequences are mega and this is why i want to draw attention to this and i hope i encourage more to write to there mp and copy and paste my poem, and if they don't change there mind out of pure frustration of reading my poem over and over again - then nothing will. but i am positive it will work. we are in control and the mp's are here to serve us. i will deliver my message from the best box in the world but it takes time as of the queuing system on my desk top, a bit like the queuing system on millifield lane when we will have with big lorry's if we don't stop this. you can find out all you need to no on this website. i am off to find my queen.<http://www.friendsofmillifieldlane.com/> )
