2015/5564/P	Joseph Leonard	43 a Goldhurst terrace	02/11/2015 19:00:35	OBJEMPER	We would like to raise concerns about the roof terrace as this will be an invasion of privacy. Not only people will be able to overlook the gardens they will have clear view of our front room and the upstairs bedroom. In addition this has the potential of creating excessive noise. This may also apply to a julliete balcony. I am very concerned also with the safety of the garden trees as the front privet hedge has already been hacked to the ground.
2015/5564/P	Debbie Scott	41 Goldhurst Terrace NW6 3HB NW6 3HB NW6 3HB	02/11/2015 17:18:00	OBJEMPER	I would like to object against the current planning for the single storey extension roof terrace. This is entirely out of keeping with the rest of the road and invasive from a privacy viewpoint for neighbouring properties. There are no other roof terraces at this level in Goldhurst Terrace.
