2015/3709/P	Cordelia Mayfield	27A Mansfield Road London NW3 2JE	03/11/2015 19:51:17	OBJ	<p>Application Number 2015/3709/P 17- 79 Mansfield Road</p> <p>DESIGN AND ACCESS STATEMENT Rev B</p> <p>1.2.2 We do not want wire edge protection to main roof area –see 2.6.3 below</p> <p>GLAZED MONO PITCH ROOF</p> <p>2.6.1</p> <p>When will we see the colour of the aluminium frames? How thick is the frame? We cannot assess this from current info.</p> <p>2.6.3 Please clarify extent of roof covering. Is this the whole flat roof? We do not want the galvanised freestanding angled posts to the perimeter of high level flat roof area as this will compromise the architectural integrity of the building and be an eyesore from the street.</p> <p>4.1.1 We do not want these railings.</p> <p>PL03 EXISTING AND PROPOSED SECTION A/A PDF (1 page)</p> <p>“Proposed railings for terrace around glazed screen to be replaced with stainless steel post and tensioned wire rope infill in the style of original design.” This is a contradiction, as the current posts are painted white. We do not want stainless steel.</p> <p>PL04 – Proposed mono pitched. Roof Plan Rev A .PDF (1 PAGE) It looks as though there is a line running across middle of window panes. Is this so? This does not concur with the current design</p> <p>PL05 – PROPOSED AND FRONT REAR ELEVATIONS REV A.pdf (1 Page)</p> <p>Re WINDOW TYPE C: high level casement window factory Finished incorporating “Slimite LITE DGU” What is Slimite Lite DGU?</p> <p>NO 3 Wire guard system – We do not want this. See point 2.6.3 above.</p>
