Loss of privacy ... Anyone on that terrace/balcony will be visible to us & in the same way <sup>that</sup> can overlook us in our garden or ~~our~~ our patio.

Sound carries through these gardens & anyone talking from that elevated position will be heard ... And if it's more than talking it would be a REAL INTRUSION on our privacy & peace.

As it is now - the wall of the extension has removed the green vista up the gardens & with people on top of the extension would be very intrusive.

Please continue on extra sheets if you wish
