Address line 2	
Address line 3	Coram Street
Postcode	WC1N 1HB

Your comments on the planning application

it was only today that I found by pure chance that Camden plans a bike docking station in front of my shop in Coram street. NO process of consultation took place: no information, no visit, not discussion. I am a small business owner and I have my shop in Coram street from over 40 years. I strongly object to this bad idea on the following grounds: it would increase noise and congestion on the pavement which is bad for my business. there are several disabled people in the building and only one parking space for disabled. I have a disabled wife and it is very difficult to find a slot for her parking when she comes and I need to

help her with a shopping and doctor appointments,
Decrease of parking spaces in the street will have very negative impact on my ability to care for her.
As it is I have problems with deliveries for my shop (and several owners of small businesses nearby have the same problem) as there are not enough parking spaces. This bad decision can have a very negative impact on my ability to conduct and keep my business, and last but not least: Over the years I saw substantial increase of congestion in Coram street, making it even more congested will be very bad for businesses and resident in the house, many of whom are my client. I hope that Camden can reconsider this bad decision or, at least postpone it until the proper consultation process takes place.
