#### Informative(s):

- 1 Reasons for granting permission.

The proposed new double glazed windows are an appropriate alteration to the host building by virtue of their sympathetic design and materials, which would preserve the character and appearance of the building and the surrounding area. Due to their nature and location, they would not result in harm to the amenity of any adjoining residential occupiers in terms of loss of outlook or privacy.

Whilst the development will have some impact in terms of changing the colour of the original windows, such alteration in this location is not considered harmful to the character or appearance of this modern building or the street scene due to its minor nature.

A comment of support has been received. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area under s.72 (CA's) of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
