

 **EQUITONE**
Fibre cement facade materials

EQUITONE [linea]

EQUITONE [linea]

Design

EQUITONE [linea] is a unique 3D shaped, through-coloured facade material that plays with light and shadow.

Finish

The linear surface highlights the raw inner texture of the core fibre cement material.

Expression

Every moment of the day, the changing angle of the daylight gives the facade material a different aspect.

Thickness	Sheet sizes	Nominal weight
10mm	2500 x 1220, 3050 x 1220 mm	16.8kg/m ²
