

I am writing in regards to Mulberry House School's planning application to Camden Council to extend the school.

My husband Professor Andrea Buraschi and I fully support the application to build new classrooms and to have a much-needed covered outdoor space. The design of the extension is very attractive as well as functional. We believe that the improved and extended building will greatly enhance the streetscape as well as allow the school to excel further in what it does best - the excellent education and care of young children.

I would be grateful if you can include this note in your supporting documents.

Yours faithfully

**Re: Application 2015/5184/P**

I would like to give my whole hearted support to this planning application. As a parent with two children at the school they stand to gain enormously from the extension. I look forward to seeing it built and the children enjoying usage.

Thank you.

Regards

[REDACTED]

---

Hello,

I am emailing in support of the extension that Mulberry House School has undertaken. The application number is 2015/5184/P.

My son currently attends the school, and I have another one starting next year. It is a great school that has provided my son with the learning environment he needs to excel. MHS has made a significant impact by drawing the hard working middle class families in the area by providing the facilities to manage our children for longer periods of time while still stimulating and developing their young brains.

There is definitely further opportunity to develop and given the extension, MHS will be able to do wonders for the future classes to come.

Thank you,

[REDACTED]

PLANNING APPLICATION REGISTERED NUMBER: 2015/5184/P

Proposed erection of a second floor erection to existing school and part covered roof playground , including a new external staircase and lift.

I write in connection with the above planning application. I have examined the plans and know the site well. I wish to offer my support to the proposal, for the reasons outlined below.

The area where Mulberry House school is located has considerable demand for schooling. Given the approval of many housing projects in West Hampstead, the demand for schools will increase greatly and the extension will help accommodate some of this demand. At the same time, the proposed changes will allow current students to have more space for play without the need of disturbing any of the adjacent sites.

The erection of a lift and external staircase improve the safety of the site and eases the access for students that may suffer from mobility difficulties.

I have no reservations in recommending the approval of this application.

Yours faithfully,

[REDACTED]

---

Dear Sirs,

I would like to lend my support for the proposed extension at Mulberry House school. I have reviewed the plans and am keen to see that there will be an increase in both outdoor and indoor space. This is clearly a positive addition and will enhance the teaching capabilities of the school. The covered outdoor space is an especially valuable addition to help with exercising the children in poor weather.

---

Dear Sir,

I hope all is well. As a parent of two girls at Mulberry House School, I would like to write in support of the planning application for new space at the school. It is a wonderful school, that has provided an excellent education for my children. I believe the additional space would very much help support its goals, allowing the existing pupils greater space and also broadening access to the high quality education it provides. I very much hope you will support the application.

Thank you and best wishes,

[REDACTED]

---

Dear Sirs,

Having reviewed the plans for the second floor extension at Mulberry House School (MHS) upper school, I would like to express my support for the proposal. The increase in both indoor and outdoor footprint can only be a positive addition to the teaching and pastoral capabilities of the school. In particular, the ability to be able to play outside in poor weather due to the covered area is a real bonus for young children who have high energy levels.

Thank you

Dear Sirs,

I wholeheartedly support the extension plans for mulberry house school. I think it will be a wonderful place to educate the next generation.

Kind regards,

████████████████████

---

Dear Sir,

I am writing to you directly because the Camden planning website appears to have the incorrect "Comments Until" date listed, and thus there is no link to add comments onto the website.

I am the father of two children at the Mulberry House School, and wholeheartedly offer my enthusiastic support for the proposed plans.

The plans are an ingenious way to add outdoor space (which is badly needed by the children) while creating an unique, attractive building that

has the potential to become an architectural inspiration for use of urban space. I hope that Camden approves these plans as it will enhance the nei

---

Dear Sir,

I would like to add my name in support of the above planning application for works at the Mulberry House School. I am the father of ██████████ who attends the school and is in ████████.

These plans if successful will greatly enhance the wellbeing of the children at Mulberry House, provide more and better use of space which in turn can only benefit their education and enhance their growth as well as the overall development of the school to the benefit of the wider community.

I trust the application will be successful

Kind regards

Lindsay Healy

---

Dear Sir,

My daughter studies at the Mulberry House School. The roof extension will allow the children more space for outdoor recreation. This is especially important as the kids now take turns to play outside, or have to be dependent on Westbere Copse which is further away and contingent on weather. It will also allow expanded classrooms.

My wife and I are closely involved with the school and are highly supportive of their teaching methods, support etc. We would be grateful if the roof extension is approved.

Many thanks

██████████

---

Dear Sir,

My name is ██████████ and I am a mother of a pupil at Mulberry House school. I am writing to support an application made by the Mulberry House school to expand the school's space through a roof extension project.

As you may already know the school is one of the most outstanding preparatory schools in North London. Most of the children that attend the school have moved to the area with their families, thus supporting and boosting both local businesses and housing prices.

So far the educational and pastoral care provided by the school helped our son, among other children, to thrive and to evolve as an individual. That being said, school

---

Dear Sirs,

Hope this email finds you well.

I write to you in support of the extension project currently being proposed for Mulberry House School.

I would be grateful if you could forward on to Camden Council, on my behalf.

Regards,

██████████

(Mulberry House Parent)

---

Dear Professor Clelland,

I am writing in a personal capacity with reference to the above application for an extension to the Mulberry House School (the "School"), which is attended by my daughter.

As a working parent who has had considerable difficulty in finding good quality local childcare, I am fully supportive of the School's endeavour in extending its existing premises to enable attendee children to have a larger playing area and additional classroom space.

The School covers children from ages 2 to 7 and as such, shepherding youngsters to external premises on a regular basis is a safety concern which must be addressed. In addition, as the School can presently only accommodate a small number of children beyond the age of 4, in order to ensure continuity of care for children who do want to stay beyond this age, consideration and support must be given to enabling the School to extend its existing footprint. The plan proposed – to add space above an existing building rather than to compromise the existing available outdoor space – is the most logical solution.

I was unable to attend your recent Assembly at the School but have reviewed the Design and Access Statement available from Camden Council's planning website. I understand from the application that there are no implications for nearby residents in terms of noise or light disruption, and must say that the design appears to be a very pleasant, well-thought out and non-disruptive addition (building works excepted) which will enhance rather than compromise the local area.

I am also very encouraged by and supportive of any design which would enable children with mobility issues or other special needs to be able to attend the School and understand this has been incorporated into the stair and lift design.

I give the plan my full support as one of the School's parents and hope that it will be approved in full.

Yours faithfully,

---

Hello,

I am a parent of one of the pupils at Mulberry House School. I have recently reviewed the planning documents for the infrastructure upgrade at Mulberry House School - and am quite excited about the upcoming changes.

Whilst I assume the construction will be at minimal disruption to ongoing school activities, I whole-heartedly support this change.

Regards

[REDACTED]

---

Dear sir

I am writing to you to offer my support to the proposal to improve and extend Mulberry house school.

My two daughters both attend the school which has an incredible reputation for educating children of pre prep age. It offers everything academically but if there is one thing it lacks it is the recreational space for the children. The schemes proposals will help them to realise this and I would urge the planning committee to bear this in mind when considering the proposals.

Yours sincerely

██████████

---

Dear Professor Sir,

"I strongly support the planning application to extend Mulberry House School. My son attends the school which is a short walk from our house. It provides an excellent education and caring environment for its students. The proposed extension will provide additional space to allow the children to learn and play. In particular, the proposed roof playground will provide much needed additional outside space for the students."

Please let me know if there is anything more that I can do in support of the application.

Kind regards,

██████████

---

Dear sIR

As a parent of two children who have been students (and one current student) at the MHS, I am very supportive of their expansion efforts and love the design and opportunities for the children to have more space to study and grow.

The school is an upstanding community supporter and I look forward to the expansion!

Kind regards

██████████

---

Hello Sir

My daughter goes to The Mulberry House school and I strongly support the roof extension as it will give children more space and better facilities.

Thanks for your consideration.

Regards

[REDACTED]

---

Dear Sir

I would like to express my support for the above planning application, both in terms of scale and design of the project and also in terms of much needed additional school facilities in the local area. I hope that you can pass these comments on to the planning committee and that the application will be granted in due course.

Regards

[REDACTED]

---

Dear Sir

Having seen the plans for the roof extension I am fully supportive of the proposal. It will create additional much needed space and a improved learning environment for the children.

Many thanks

Hello

I am writing in relation to the Mulberry House planning application for the school extension. I write in my capacity as a local resident (we live just off Minster Road near to the school) and a parent whose child attends the school. The proposed extension is, in my opinion, extremely sympathetic with the local area, the surrounding buildings and the environment. It is also essential to enable the Mulberry House to meet its goals as a local school, committed to providing the children with the highest standards of early education and a strong sense of community. The children do not currently have sufficient space to play and travel to other community playgrounds is not practical for such small children.

Thank you for considering this important development in our community.

Best regards, [REDACTED]

---

To whom it may concern,

Regarding the application 2015/5184/P to extend a floor at Mulberry House school, we are fully supporting the decision of the school.

We have 3 children who has been or still going to mulberry house school. Through the years a common feeling was that from the prep classes the space felt restricted. The extension will be the answer to that problem.

It will benefit the children immensely by letting them grow with the space as oppose to be restricted and more wild when they get out.

It could achieve a big difference in our children academically and emotionally. We are fully in approval with the extension.

Thank you for your understanding and help in the matter.

Best,

[REDACTED]

Dear Sirs,

I am a parent at Mulberry House School and probably one of the longest 'serving' parents as I have been associated with the school since 2005.vMy youngest child has now entered the "prep" classes. My two other children were also at Mulberry a House, one of them till age 7.

Having been with the school for a long time and seen my two eldest 'graduate' from Mulberry House I am acutely aware of the need for space, particularly with young children. I have studied the plans the school has presented to parents and I am in absolute favour of them. In short, the school, or

rather the kids, need that additional space.

I really do hope you look on their plans in a favourable light.

Many thanks

██████████
