Subject: OBJECTION: APPLICATION REF: 2014/6067/P

Dear Jennifer

I trust all's well with you.

Further to Victoria Nicholl's message to you below, I would also like to add my objections to those of my neighbours on Holly Mount about the gate and trellis at 3, The Mount, which are unsightly and overbearing, considerably exceeding 2m in height. They are also in flagrant breach of Camden's own conservation area statement concerning Hampstead and the specific description therein of Holly Mount which I have found on Camden Council's website. I assume you must be familiar with this document but please let me know if you need me to send you a link.

Specifically, the electronic gates which back on to Holly Mount are absolutely massive with a modern industrial appearance and would be more appropriate to the entrance of a factory than to a Grade II listed house on one of the prettiest streets in the whole of London. I cannot imagine Camden Council would have given their original approval for this if they had known what an eyesore the outcome would be.

I look forward to hearing from you.

Many thanks and kind regards

Alastair Munro
 24 Holly Mount
 London NW3 6SG

 > OBJECTION TO DETAILS OF WORKS COMPLETED BEFORE APPROVAL OF DETAILS
 > UNDER APPLICATION REF: 2014/6067/P
 > Dear Ms Chivers
 > The original application to demolish the garage at this site under
 > reference 2013/4569/C stated that it should be removed so that "the
 > visual integrity of the original boundary wall will be re-instated and a
 > large overbearing bulk will be removed from the streetscene."
 > The trellising on top of the boundary wall (picture below) should be
 > removed as it compromises the visual integrity of the wall that the
 > applicant claimed would be preserved by removing the garage. It is also
 > not in keeping with the historic street view that is an integral feature
 > of this conservation area.
 > 2. For the same reasons, the height of the gate should be in line
 > with the original boundary wall.
 >
 > 3. Both the trellising and the gate are over 2 metres high and reduce
 > the light in our homes.

```
