**Subject:** 10 Tottenham Street London W1T 4RD - 2015/4374/P  
**Attachments:** P1010466.JPG; P1010467.JPG; P1010468.JPG

Further to our comments, we attach these photographs of the rear of the premises to show the location of residents windows and also to illustrate how inaccurate the submitted drawings are.

We believe the proposed extraction box pipe would run vertically along the centre of the photographs.

(Please note the existing black extraction box pipe is from a neighbouring building.)

We hope this is helpful.

Regards

Linus Rees  
director and trustee

**Subject:** Comments on 2015/4374/P have been received by the council.

Our association objects to this application. Also the drawings submitted for existing and proposed views do not accurately show the elevations. They are wildly inaccurate. The applicant should resubmit drawings that are accurate and also include photographic views of the existing rear , side and oblique views. The proposed extract pipe is likely to block daylight from residents windows at the rear elevation. The is also a Camden Council owned block and the planning department should be meticulous in its assessment of the plans. We suggest officers visit the site to assess and proposals.
