2015/2582/P	Claire Denby	The flat 13 South end road London Nw32pt	12/11/2015 13:34:29	OBJ	The internal and external machinery (attached to the outer walls) belonging to the bakery is affecting our living standards beyond measure. The vibrations against the shared wall and noise which resonates throughout the flat cause huge disruption day and night. It has made two of the bedrooms uninhabitable; members of the flat often have to sleep on the sofa in the living room because the noise pollution throughout the night is too great.
