Planning application address: 35 CAMDEN MEWS, NW1 9BY

I support the application (please state reasons below)

Your comments

A good friend and her family have lived at the property that will be directly affected by these plans for many years. One of the things that is wonderful about Camden and a reason they choose to live in this area is the unique nature of streets such as this mews. Which is why I object to building works such as those being proposed.
