Dear Mr Peres Da Costa,

Ref: 2015 / 4519 / P - retrospective planning application for erection of gate

I'm writing in respect of the above planning application, which I've only just become aware of. I'm handling Mr and Mrs Procter's legal affairs as their Lasting Power of Attorney - they live in Cottage 3, 134 Greencroft Gardens, which is at the end of the drive in question. I collected their mail at the weekend and came across the letter, hence my only contacting you now.

I am writing to request that the decision is delayed slightly, so that I can consider this further. Based on recent experience we have some specific concerns about the gate, and issues of access for people visiting my elderly aunt and uncle, both of whom require live-in care. The situation is not straightforward and it would be valuable both to reflect on this, and also canvas opinion from Mr David Sutherland, the applicant.

Many thanks for considering this request, which I believe is justified because of the specific issues relating to my aunt and uncle's current circumstances. My uncle takes a negative view of the gate.

Many thanks,

Best wishes,

Garry
