I write to support in principle the redevelopment of the 'Little Bay' site on the corner of Belsize Road and Priory Road NW6. It should combine modernising and extending this popular restaurant with additional residential accommodation on a site which looks less than tidy at present. My one reservation would be that there should be no significant light reduction to the new property 1A Priory Road, which the Council only authorised fairly recently.

The eastern (Kilburn) end of Belsize Road is improving steadily. What are the current plans for 221 Belsize Road, the former station house?

Martin Harris
22A Priory Road
