#### Informatives:

- 1 Reasons for granting permission.

The proposed satellite dishes are small and unobtrusive and their location behind the existing plant screen means they would be mostly hidden from views from the public realm. As such they are not considered harmful to the character or appearance of the host building or the street scene.

Due to their size and location, no harm would be caused to the amenity of any adjoining residential occupiers in terms of loss of light, outlook, enclosure or privacy.

No objections have been received prior to making this decision. The sites planning history and any relevant appeal decisions were taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework
