2015/5743/P	Charles Ansdell	62A Pilgrims Lane NW3 1SN	22/11/2015 17:57:16	OBJEMPER	In response to the application number 2015/5743/P we would wish to register the following comments.

Overlooking (loss of privacy):

The proposed design involves moving the existing windows outwards to the line of the proposed extension across three whole stories. Regardless of the impact of increased bulking, this means that the first and second floor windows of the proposed extension will directly overlook the glass roof on the sitting room of 62a Pilgrim's Lane, leading to loss of privacy.

Noise in use:

The stated reason for the proposed construction is to put in place new bathrooms across three different stories.

The proposed location of one of the bathrooms would be directly adjacent to our bedroom. When we purchased the property in 2007, we subsequently changed the internal layout in 2008 to place the bedroom beyond the adjoining wall to minimise any noise from 64 Pilgrim's Lane (and likewise from 62 Pilgrim's Lane into 64 Pilgrim's Lane).

If the proposed extension were carried out, it would have a direct impact on the amounts of noise both through the specific impact of the plumbing, pumps and showers associated with bathrooms.

This would have a significant impact on our quality of life (and sleep) as this bathroom would be next to our heads.
