2015/6106/P	Barrie Tankel	43a Lancaster Grove NW3 4HB	21/11/2015 01:27:52	OBJ	<p>This application is incomplete. There are no plans of the ground floor and basement. We object because this lack of full information could mean that the development has a huge impact on the adjoining buildings particularly nNo 24.</p> <p>It appears that the garden has been substantially reduced and one reason for rejection by the Inspector was the loss of garden.</p> <p>This application should be rejected until such time as a full application is made to give the opportunity for the planners and the neighbours to fully consider the implications.</p> <p>I will comment further once I have received further information.</p>
