

**Application No:** 2015/6377/T      **Consultees Name:** Hermal Patel      **Consultees Addr:** 86 Canfield Gardens London NW6 3EE      **Received:** 16/11/2015 18:47:44      **Comment:** SUPPRT      **Response:** Tree roots have caused damage to our garden wall which fell down and so had to be removed. Damage to the adjacent property is clearly visible. These trees are too close to the building and now too big as left unmaintained for too long. I therefore support the application as I believe it is necessary to prevent further damage.
