Your comments on the planning application

Dear Sirs,

We object to this application based upon the submitted drawings showing inaccurate window positions. Our rear windows will be impacted greatly and we have the following concerns:

1. Noise- What are the intended hours of use of the duct system? Are there any acoustic baffles to stop the air-flow noises? (Internal Air movement is noisy). How often will the system be maintained?
2. Appearance- What material is this duct made of? at 600 x 600 cm this is a large unsightly addition to the rear of our

building.

3. Smells- What are the details of any filtration system? Are there any fire-stops within the duct to prevent fire spreading?

We feel that the application has not given enough detail and also that the system technically may not be either efficient or workable at such a long "run". There needs to be proper plans and imagery to demonstrate the ACTUAL Visual impact.

Regards
