To whom it may concern

Re: 14 Crowndale Road, London NW1

We would like to take this opportunity to show our support to Dr. Benham in his plan to acquire the above premises and change its usage to expand his very popular dental surgery.

Mornington Dental Surgery has rapidly grown over the years and the demand for this kind of service is high in this area. As we and our customers are very satisfied with their service and we are keen to make all concerned aware that we are in full support of him.

Yours faithfully,
