Hi

Can this be uploaded onto TRIM/m3.

Thanks

Kathryn Moran
Senior Planning Officer

Subject: Camden Lock Market - application 2015/4774/P and 2015/4812/L

Hi Kathryn,

I am writing to you as I wanted to express support for the proposals to redevelop Camden Lock Market under applications **2015/4774/P** and **2015/4812/L**. I recently visited the public exhibition which showed the proposed changes.

I believe that the Market in it's current form is not ideally suited to the large numbers of people who visit. The proposals would ease congestion through the market (I regularly visit and pass through the market with my family, and so making it more accessible is important to me). Also, I believe the proposal of opening up the vaults space is a great idea; utilising dormant space makes complete sense. An increased variety of retail units in the market would give it broader appeal and, as a local resident, I would utilise the market more if it offered more diversity of stalls/shops. It would be great if the market could be geared towards the needs of both tourists and local residents.

I believe in retaining the heritage of the market, and in making sure it doesn't lose it's identity, but also believe that some change to the market is necessary to make it more functional and a little more modern.

Hopefully these points will be taken on board when considering the proposals.

Regards,
Alexander Kelly
