| 2015/5894/P | William Oddie | 31 Heath Hurst Rd NW3 2RU NW3 2RU | 26/11/2015 19:02:04 | COMMCO MPAP | There would be disturbance and noise for at least a year, in an area recently blighted by over a years reconstruction work. Extension of ground floor would take it within a few feet of the garden fences of Heath Hurst Rd. Addition of third floor and more balconies would intrude on privacy of Heath Hurst Rd houses which would be overlooked. A higher rooftop and would cut out considerable sunlight. The wording of the application implies the intention of future amendations and the likelihood of continuing disturbance way into the future. These two roads have just about hung on to a degree of space and separation amongst the houses and their small gardens. The development applied for would detract from this and add to a cramped congested location. We are totally opposed. William and Laura Oddie. 31 Heath Hurst Rd. |
