While I strongly prefer that the site remains a single family unit, I still believe that the building is too large for the plot size which will have an over-bearing impact on the street. The loss of garden is unnecessarily substantial and I believe a plan should be possible that does not require the los of so many mature trees. That said, it is hard to be certain of the plans as the Demolition Report that has been provided is still the one that was provided for the previous application. Full information should be provided before the application is considered.</p> <p>I also believe that any application that is approved at this site should include a strong requirement that the house remains a single dwelling and is not later altered to allow multiple occupation.</p> |
