Your comments on the planning application

I am afraid I must object but the proposed installation of two kitchen hoods and extract duct to the rear of the adjacent buildings will add to an escalating noise problem for residents of Alfred Place.

We live in the top flat at number 38 and the noise from the extract ducts of buildings across the road and nearby already makes our flat a place of constant noise. In the summer it is difficult to hear what is going on in the flat when the windows are open and when it is too hot to keep them closed this adds to the stress. Our study / spare bedroom is

Planning Application Details

a place of constant noise.

When the fans are switched off between 11:30 and 12 each night we always notice.

Please do consider the impact upon the adjacent neighbour's rights to an undisturbed living situation and the escalation this noise would cause to stress levels and civilised living.
