The proposed work materially changes the appearance of the development. The resident in this flat is continually making changes to the apartment , causing noise pollution & making other residents lives a nightmare. The residents of this development are elderly many suffering poor health & it is completely unacceptable for their lives to be made a misery on such a regular basis.

If it does, we strenuously object to any further overlooking, which is a gross invasion of our privacy. We would also be concerned at any change in the outer appearance of the building, which should preserve uniformity.
