2015/6438/T	J. Anderson	11	04/12/2015 08:00:31	OBJ	I strongly object to this application on the grounds that it both adds to the local amenity and would set a terrible precedent, allowing trees to be cut down willy nilly. So, unless it is conclusively proved that this tree is diseased, I believe this application should be opposed.
