

ALL SAINTS GREEK ORTHODOX CATHEDRAL, CAMDEN

PLANNING STATEMENT IN SUPPORT OF LISTED BUILDING CONSENT APPLICATION TO RECONFIGURE AND UPGRADE KITCHEN, WC AND STORAGE AREAS

BACKGROUND

For general background please refer to the Design and Access Statement.

STATEMENT

The works are confined to parts of the building which are not of great significance and which have already been much altered.

The works are necessary in order to provide decent ancillary accommodation for the church, which has a large congregation many of whom are elderly.

The works will help the church meet their obligations in respect of making appropriate provision for people with disabilities

Listed building consent for alterations to the kitchen area was granted in 2011 (ref no: 2011/4215/L).

Relocation of the wheelchair WC to the west end of the building avoids the need to widen the doorway between the kitchen and the church.
