Your comments on the planning application

The extension to the basement level will considerably prolong works and increase the volume of heavy machinery on site and removal of excavated material. I live opposite and when the building adjacent to Magnet was being built I was intolerable during the day with the noise, even with the windows closed when 30 degrees centigrade!  
The extension of communal study areas and coffee shop will attract visiting students, again swamping the area with students who have no commitment to the local area.  
Temporary residents have no respect or vested interests in co-operating and living peacefully with neighbours.

### Planning Application Details

The extended construction is near the French School. There is already a considerable build of traffic with parents dropping of children, council waste vehicles (who start running at 5am) and Camden Repair Depot with 30 vans each morning, and with construction lorries visiting this site, a fatality will be an inevitable consequence - and probably a child. I have highlighted this issue and will hold the council to account on such an outcome.
