Informative(s):

- 1 The proposed internally illuminated fascia sign is considered appropriate in terms of size, design. The individual letters would be internally illuminated and therefore the level of illumination would be minimal. The projecting sign is appropriate in terms of size and is characteristic of the surrounding area. Therefore the proposed advertisements would conserve the character and appearance of the conservation area.

The proposal will not impact on the neighbours' amenity nor would it be harmful to either pedestrian or vehicular safety.

The site's planning history has been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The

proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 consolidated with amendments since 2011; and paragraphs 14, 17, 56 - 67, 126 -141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
