Subject: Application Comment on Planning Application No: 2015/6015/P

FAO Jenna Litherland

I have been notified of the above application as it is immediately adjacent and overlooked by our own property within the Plimsoll Building.

Having examined the plans and artists visuals careful, I think the plans look very exciting and generally extremely well and creatively designed, however I do feel that inclusion of more horticultural greenery, particularly within the space between the two Coal Drop sheds, i.e. what will be the atrium of the shopping area, would greatly enhance and humanise the space. Ideally, I would like to see trees planted here with some seating beneath so that the hard landscaping will be broken up.

Hard and soft landscaping have been very well designed and executed through out the NIC site and I think that it would be a great pity if this section of the development lacked the greenery to enhance the retail and lifestyle experience within the King's cross area.

Yours

Nicolete Blackett-Ord
