| 2015/6455/P | Danielle Chisolm | Flat 238 Castellain Mansions Castellain Road W9 1HD W9 1HD W9 1HD | 12/12/2015 09:18:34 | OBJ | The area is already over crowded and struggles to support the current residents. |
| 2015/6455/P | Claudine Piggott | 19a Broomsleigh Street London | 13/12/2015 16:42:45 | COMMNT | Firstly the redevelopment is unsightly and the sheer height of the proposed buildings continues to ruin West Hampstead's village like feel as well as blot out privacy and light to Lymington Rd residents in particularly. Secondly there will be further congestion to the area which already exceeds capacity on West End Lane roads and pavements as well as all three stations. Thirdly there is no infrastructure for more residents in terms of medical centres or schools. Fourthly it would appear that the Council hold meetings yet ignore the wishes of the locals in favour of financial gain from the property developers |
| 2015/6455/P | Maddie Gatabaki | 19 Thomson Crescent | 11/12/2015 21:49:22 | COMMNT | I would like to object to because of the adverse impact it will have on road safety, Health services provision, nature conservation, open spaces and general noise and disturbance. |
| 2015/6455/P | Renato Martins | 36 Honeybourne Road London nw6 1je | 12/12/2015 19:17:00 | OBJ | I object to the planning application as it will have a large impact on traffic, schools, etc, considering the cumulative impact with the high number of new developments that should not have had planning permission in the first place granted in the area. |
| 2015/6455/P | R Tomkinson | 90D Fordwych road nw2 3tj | 12/12/2015 22:25:04 | OBJ | How can more development be allowed in West Hampstead when Camden have made no effort to upgrade the already overloaded infrastructure in the area. The pavements are dangerously overcrowded. there are totally insufficient school places, etc. The development is much too big. |
| 2015/6455/P | R Tomkinson | 90D Fordwych road nw2 3tj | 12/12/2015 22:25:26 | OBJ | |
| 2015/6455/P | Angela Pober | Town Hall Judd Street Camden | 10/12/2015 22:39:52 | OBJ | In addition to points being raised by the residents' associations I want to draw your attention to the segregation of people to be housed within this development. The separate block for non-private homes is worse than the 'poor door' so abhorrent to the concept of integrated community. This development has taken this one step further by building a block to house the poorer/non-private residents. There is no reason why units should not be mixed within the blocks and until the design accommodates this design then it should be rejected on political, social and community grounds. |
