2015/6208/P	Georgina Gray	43 Gloucester Avenue	11/12/2015 17:49:16	OBJ	I'm concerned about the level of noise and the length of the period of time when the works would be taking place not to mention the alternations to the building. i feel there is not enough information provided to assess the extend of proposed works. I believed we are in a conservation area and I don't understand how the changes to the external of the building could be even taken into consideration.
