Your comments

DISTURBANCE - Demolition & rebuilding would cause massive noise, traffic problems, etc for a very long time - at least a year, surely.

3 storeys would take the height above the rooftops of adjacent buildings in H.H. Gardens, as well as blocking light from houses in Heath Hurst Rd.

Extension at rear - Would mean it would almost abut directly onto several Heath Hurst gardens.

New roof terraces create intrusion onto/overlooking Heath Hurst Rd gardens & neighboring houses in H.H. Gardens.

The comment on forecourt, no boundary enclosure to "allow various changes to all elevations, gardens & boundary enclosure" seems to imply that there could be more & more disturbance to come.

Don't again! For the past year⁺ we have endured massive noise & disruption from a complete "make-over" at no 33 Heath Hurst. This is thankfully completed, & relative ~~the~~ peace has returned. We don't want another year of hell.

The houses on the road are quite congested & crammed together. This would make it worse. We are totally opposed

Please continue on extra sheets if you wish

P.T.O.

N.B.

I made a valiant attempt to do this on line but found the process impossibly complicated & unclear. There are all sorts of "boxes" to be ticked or unticked or ignored, with names & items that are baffling.

As fact is filling in this form was simple & quick & totally intelligible. Ironic isn't it? 'Online' was supposed to be faster & simpler. I am afraid I ~~have~~ had this kind of experience before with Camden's website (orders!). It invariably feels as if it was originally designed by someone who revelled in computers at the expense of people. Time for huge make over - user friendly please.
